H2 Secondary Heading after Page Title

This is body text. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Fusce varius accumsan est non mattis. Nullam et imperdiet ante. Mauris eu urna sed nunc molestie ultrices. Curabitur sodales aliquet metus eget malesuada. Lorem ipsum dolor sit amet, consectetur adipiscing elit.

This is a lead in to a procedure that uses a numbered list:

- This is the numbered list at the first level.
- This is the second step. Click **Button Name**.
 - This is the numbered list at the second level. I don't think we need a third level.
 - This is the numbered list at the second level. We may need nested levels, such as ability to add bullets within numbered steps. The second line should align with the text, not the number.

Important

This is the example of an tip/note/important item. This is a two column table with a colored top and bottom border. In the future, it would be nice to have icons to represent these three concepts. I retained the black text for more emphasis.

Table Heading	Table Headings are Centered
This is table body text	Lorem ipsum dolor sit amet, consectetur adipiscing elit
Table text is left justified.	Lorem ipsum dolor sit amet, consectetur adipiscing elit
Alt shaded rows are ideal	Lorem ipsum dolor sit amet, consectetur adipiscing elit
